Professional Summary

Computer Science Engineering student graduating in 2026 with hands-on experience in full-stack development using React.js, Next.js, Node.js, Firebase, and Supabase. Built scalable applications including workforce management, job portal, and real-time communication platforms with authentication, cloud integration, and database-driven architectures. Strong foundation in Data Structures, Algorithms, DBMS, and Software Engineering.

Education

B.Tech in Computer Science and Engineering

2026 Graduate

Dnyanashree Institute of Engineering and Technology, Satara

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, Python, Java, C
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Shadcn UI
- **Backend:** Node.js, Express.js, Flask, Django
- **Databases:** MySQL, MongoDB, Firebase Firestore, Supabase
- **Cloud and Tools:** Firebase, Cloudinary, Git, GitHub, VS Code, Vercel
- **Core Concepts:** DSA, OOP, DBMS, Operating Systems, Computer Networks, REST APIs

Internship Experience

Python Full Stack Developer (Virtual Internship)

Apr 2025 – Jun 2025

Eduskills

- Completed full-stack training using Python, Django/Flask, HTML, CSS, JavaScript, and MySQL.
- Built and integrated front-end and back-end components for web applications.

Networking Intern

Jun 2023 – Jul 2023

Indradeep Information Technology Pvt. Ltd., Satara

- Learned fundamentals of LAN/WAN setup, IP addressing, and routing.

Projects

SmartConnect – Smart Worker Contractor Platform | *Flutter, Firebase, Python, Machine Learning, Google Maps API*

- Developed a cross-platform workforce management application connecting workers and contractors through AI-powered matching and intelligent job recommendations.
- Integrated Firebase Authentication, Cloud Firestore, Google Maps API, and real-time messaging to support location-based hiring workflows.
- Implemented QR-based attendance tracking, push notifications, and secure payment management features.

Job Portal | *React.js, Supabase, Clerk, Tailwind CSS*

- Architected a full-stack job portal using React.js and Supabase, implementing secure, role-based authentication via Clerk to distinguish between recruiter and candidate workflows.
- Implemented job posting, browsing, and application workflows backed by Supabase.
- Engineered a high-performance, responsive user interface utilizing Tailwind CSS and Shadcn UI, ensuring seamless cross-device accessibility and a modern user experience.
